

Meet the MAINTENANCE CREW

Manshley

Manshley is a highly qualified duo of tool experts who attended the “Tim the Tool-Man Taylor’s Weekend Workshop” back in the early 1990’s. They also gain their yearly continuing education by watching YouTube Tutorials mid-project. They can be credited for planting trees, changing the innards of the men’s room toilet, building a balance beam, and anything else that gets them out of work.

This WBF (work best friends) pair can often be seen trying out the latest Tik Tok trends in the gym during their break time, or shopping the “interesting gadgets” section at The Goodwill, while using southern accents.
